#### **EXPERIENCE**

## Ibotta Inc.

April 2021 - PRESENT - Senior Fullstack Engineer

Spearheaded the development of the logged-in web experience, catering to a rapidly growing user base of 200,000+ monthly active users. Successfully led two cross-functional squads consisting of 11 engineers, prioritizing feature development to enhance our logged-in web experience. Thrived in a high-paced, feature development-focused environment, demonstrating adaptability and efficiency in delivering top-tier solutions. Played a pivotal role in the professional growth of several associate, mid-level, and senior engineers through mentorship and guidance. Leveraged expertise in Vue, Node, and Rails to architect and implement robust solutions, ensuring optimal performance and user satisfaction.

# July 2019 - April 2021 - Software Engineer - Backend

Drove initiatives aimed at enhancing core user experiences, ensuring the continued satisfaction of our user base. Demonstrated proficiency in building and maintaining robust microservices using Node, Java, Kotlin, and Rails, optimizing system performance and reliability.

## Jan 2018 - July 2019 - **Software Engineer**

Utilized a diverse skill set in Java, PHP, and .NET to maintain and enhance core legacy products, encompassing a wide spectrum of domains, including video, agenda and records management, and website design.

# Sep 2016 - Dec 2018 - Web Developer / Designer

Spearheaded the management and modernization of legacy Classic ASP content management systems for government websites, ensuring improved functionality, security, and user experience.

## Apr 2015 - Sep 2016- Senior Customer Care Engineer

Led and managed a core team of 12 dedicated customer care agents, ensuring the delivery of exceptional customer service to over 2,000 government agencies.

#### **EDUCATION**

**Regis University**, Denver CO — B.S. Computer Science

#### **LANGUAGES**

JS / Typescript: Node, Vue, Nuxt, React, and React Native

Ruby / Rails, Java (some Kotlin)

CSS, Flexbox, Foundation, Grid, Tailwind

PHP & Classic ASP

### **NOTABLE SKILLS**

AWS (DynamoDB, ElasticSearch, Kubernetes, Cloudfront)

Docker

Jenkins / Travis / Github Actions

Micro-services

Terraform / Atlantis

Test Driven Development

Excellent communication skills (over 15 years of customer service experience)

Figma

**Problem Solver**
